Introducing the world's most effective portable air cleaner

IN THE NEWS...

"70% of home buyers rank a home's health imprint as equally or more important than other aspects including aesthetics, longevity and cost."

- Dodge Data and Analytics Green and Healthier Homes Report 2015

"Medical-grade, DFS™ air cleaning technology can help asthma and allergy sufferers, elderly and small children, people susceptible to airborne infections and everyone needing or wanting to breathe pure air."

- Vincent Lobdell, Jr., President, HealthWay

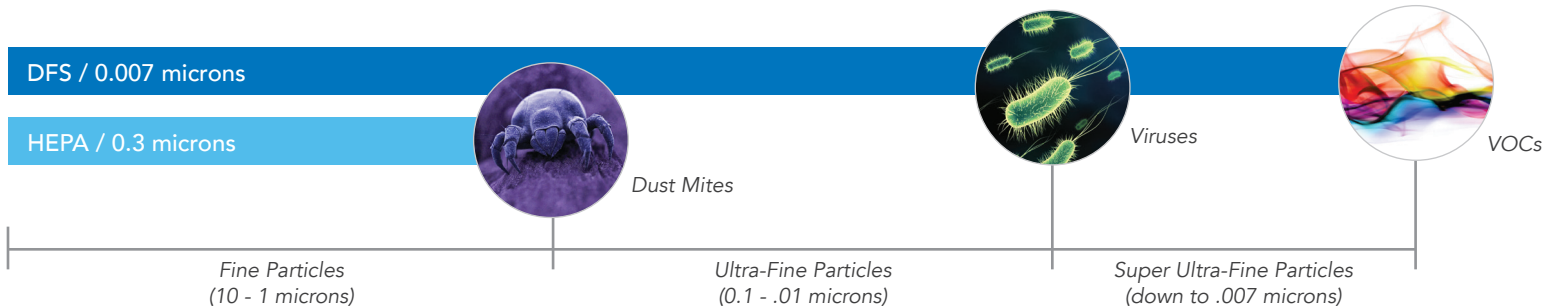

BREATHE, SLEEP & LIVE HEALTHY

- Fresh contaminate-free air for your entire home
- Award-winning, patented medical-grade technology
- Conveniently move to where it is needed most

DFS™: The Gold Standard for Air Cleaning Technology

The Disinfecting Filtration System™ (DFS™), the world's leading air cleaning technology, was developed from U.S. germ warfare research. DFS removes 99.99% of airborne particles down to 0.007 micron ~ 40 times smaller than HEPA (0.3 microns). DFS medical-grade technology can give you 90% cleaner air in as little as 30 minutes.

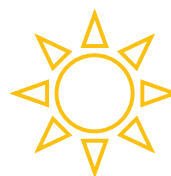

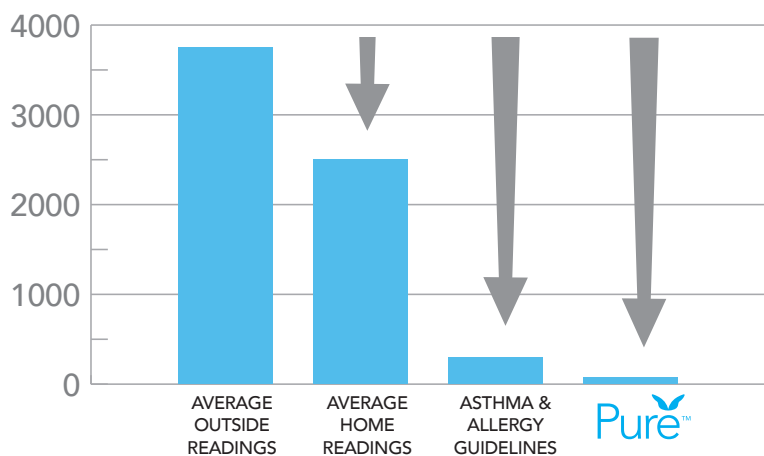

SUPER LUXE™

Powered by HealthWay®

- FDA Class II Medical Device
- Covers up to 1,000 square feet of home space
- Filters lasts up to 18 months
- Stage 1: VOC pre-filter (zeolite, carbon and potassium permanganate)
- Stage 2: DFS germicidal electrical grid (deactivates mold, bacteria, dust mites and viruses)
- Stage 3: DFS main filter (Captures 99.99% of dust, pollens, mold, dust mites, pet dander and ultrafine particles. Electrical grid deactivates pathogens in main filter)
- DFS verified by the Dept. of Defense and major universities

	High	Med	Low
• Power consumption (watts)	125	75	65
• CFM	200	125	85
• Operation noise (dB)	58	51	45
• Dimensions - 15" w x 16" d x 27" h Weight - 36 lbs.
